Preliminary Program – Pancreas 2017

September, Thursday 28

7:30 -18:00 Registration/Secretary

Auditorium Juan Pablo II

8:00-12:30 Clinical Science Workshop on Acute Pancreatitis

Session I (8:00 – 10:15)
CHAIRS: Santhi Swaroop Vege (Rochester) – Jose Eduardo Cunha (Sao Pablo)
- 8:00-8:15 The mechanics of acute pancreatitis. Rodger Liddle (Durham)
- 8:15-8:30 How do we predict severe, moderately severe in first 48 hrs. Georgios Papachristou (Pittsburgh)
- 8:30-8:45 Role of hydration, nutrition, urgent ERCP and cholecystectomy. Chris Forsmark (Gainsville)
- 8:45-9:00 When, how and what intervention for complications. Nageshwar Reddy (Hyderabad)
- 9:00-9:15 Future: new imaging, biomarkers, tools for intervention and drugs. Pramod Garg (New Delhi)
- 9:15-9:30 Discussion
- 9:30-10:15 Case Based Panel Discussion – Moderators: Santhi Swaroop Vege (Rochester) and Oscar Mazza (Buenos Aires)
  Case presentation with multiple choice questions - Panelists: Marc Besselink (Amsterdam), Robert Sutton (Liverpool), Pramod Garg (New Delhi), Carlos Ocampo (Buenos Aires), Carlos Roble-Medranda (Guayaquil), Augusto Villaverde (La Plata), J. Eduardo Cunha (Sao Pablo).

10:15-10:45 Break

Session II (10:45 -12:30)
CHAIRS: Carlos Fernandez del Castillo (Boston) - Silvia C. Gutiérrez (Buenos Aires)
- 10:45-11:05  Biliary pancreatitis: need for a specific treatment?. Philippe Lévy (Clichy)
- 11:05-11:25  Randomized trials in acute pancreatitis. Marc Besselink (Amsterdam)
- 11:25-11:45  Guidelines in Acute Pancreatitis, last decade: critical analysis & results. TBD
- 11:45-12:00  Acute Biliary Pancreatitis in Argentina & Experience. Carlos Ocampo (Buenos Aires)
- 12:00-12:20  APPRENTICE’S Results (Acute Pancreatitis Patient Registry to Examine Novel Therapies In Clinical Experiences). Georgios Papachristou (Pittsburgh)
- 12:20-12:30  Discussion

**Classroom 204**

8:00 – 12:30  Basic Workshops on Pancreatology

- **Autophagy in Pancreas Diseases**
  CHAIRS: Zoltan Berger (Santiago de Chile) – Steve Pandol (Los Angeles)
  - 8:00-8:20 - Genetic models of pancreatitis caused by impaired autophagic/lysosomal pathways. Ilya Gukovsky (Los Angeles)
  - 8:20-8:40 - Impaired autophagy and mitochondrial dysfunction drive pancreatitis. Anna Gukovskaya (Los Angeles)
  - 8:40-9:00 The acinar cell minor secretory pathway: A pivotal control platform coordinating secretion, autophagy and differentiation. Guy Groblewski (Madison)
  - 9:00-10:15  Short Talks/Oral Presentations TBD

10:15 –10:45  Coffee Break

- **Novel Approaches in Cancer Therapy**
  CHAIRS: Florencia McAllister (Houston) - Raul Mostoslavsky (Boston)
- 10:45-11:00 Cancer Molecular Epidemiology. Francisco Javier Oliver (Buenos Aires)
- 11:00-11:15 Cell and gene therapy strategies. Present, future and examples. Cecilia Frecha (Buenos Aires)
- 11:15-11:30 Oncolytic Virotherapy for Pancreatic Cancer. Eduardo Cafferata (Buenos Aires)
- 11:30-11:45 Emerging immunotherapy strategies in pancreatic cancer. Guillermo Mazzolini (Pilar)
- 11:45-12:15 Short Talks (Genomic testing tools, liquid biopsies, personalized treatment)
- 12:15-12:30 Round table

12:30 - 14:00 Break and Poster sessions
12:30 - 14:00 Pancreatology Editorial Meeting

Auditorium Juan Pablo II
14:00-14:30 Keynote conference Presenter, Maria Inés Vaccaro (Buenos Aires)
Suresh Chari (Rochester) “Autoimmune Pancreatitis: current concepts”

14:30-18:20 Symposium Frontiers in Pancreatology
   Chairs: Suresh Chari (Rochester) and Maria I. Vaccaro (Buenos Aires)
   - 14:30-14:50 Development of novel drugs for acute pancreatitis. Robert Sutton (Liverpool)
   - 14:50-15:10 Emerging targets for the prevention or treatment of acute pancreatitis. Fred Gorelick (New Haven)
   - 15:30-15:50 Linking Metabolism to Epigenetics in Cancer: SIRT6 provides new clues. Raul Mostoslavsky (Boston)
- 15:50-16:10 The Functional role of Stroma in Pancreatic Cancer. Raghu Kalluri (Houston)

16:10 – 16:25 Break

- 16:25-16:45 Present and future on pancreatic cancer early detection. Florencia McAllister (Houston)
- 16:45-17:05 Towards early detection of pancreatic cancer. Tatjana Jurcevic (London)
- 17:05 –17:25 Precision medicine for complex pancreatic disorders: guidance for individual patients - David Whitcomb (Pittsburgh)
- 17:25 -17:45 Personalized medicine using pancreatic cancer patient-derived organoids - Maximillian Reichert (Munich)
- 17:45 – 18:05 Prospects for Improved Outcomes in Pancreatic Cancer - John Neoptolemos (Liverpool)
- 18:05 – 18:20 Messages to take home - Suresh Chari – Maria Ines Vaccaro

18:20 – 18:35 Coffee Break

19:30 Cocktail Reception
Preliminary Program – Pancreas 2017

September, Friday 29

7:30 -18:00 Registration / Secretary

Auditorium Juan Pablo II
8:00-9:30 Symposium on Chronic Pancreatitis
CHAIRS. Chris Forsmark (Florida) – David Zagalsky (Buenos Aires)
  ▷  8:00-8:15 Clinical approach to chronic pancreatitis. Luca Frulloni (Verona)
  ◦  8:15-8:30 Chronic pancreatitis: variable complications of pain, diabetes and cancer. David Whitcomb (Pittsburgh)
  ◦  8:30-8:45 Update on the role of Endoscopic Ultrasound in early diagnosis of Chronic Pancreatitis. Enrique Dominguez Muñoz (Santiago de Compostela)
  ◦  8:45-9:00 Endoscopic Management in Chronic Pancreatitis. Jean Marc Dumonceau (Buenos Aires)
  ◦  9:00-9:15 Short talks / A&Q

CHAIRS: Claudio Bassi (Verona) - Cecilio Cerisoli (Buenos Aires)
  ◦  9:15-9:30 Therapeutic EUS in the management of pancreatic lesions. Carlos Robles Medranda (Guayaquil)
  ◦  9:30-9:45 Minimally invasive pancreatic resection: evidence-based approach. Marc Besselink (Amsterdam)
  ◦  9:45-10:00 ERCP therapeutical & pancreatic disease. Are indications settled? Results. Georgios Papachristou (Pittsburgh)
  ◦  10:00-10:15 Spyglass TBD

Classroom 204
  ▷  9:30-10:30 Oral Presentations
CHAIRS: Martin Fernandez Zapico – Daniel Grasso
10:15 – 10:30 Break

**Auditorium Juan Pablo II**

**10:30- 12:30 Symposium on IPMN**

CHAIRS: Massimo Falconi (Milan) – Carlos Ocampo (Buenos Aires)

- 10:30-10:45 Role of CT and MRI-MRCP in IPMNs: more than just showing bubbles. Mariano Volpaccio (Buenos Aires)
- 10:45-11:00 EUS and IPMN: is really necessary? - Augusto Villaverde (La Plata)
- 11:00-11:15 Intraductal Neoplasms: tools for pathologist – María Teresa Dávila (Buenos Aires)
- 11:15-11:30 Surgical Management of IPMNs - Carlos Fernandez del Castillo (Boston)
- 11:30-11:45 IPMN: a surgical disease - Markus Büchler (Heidelberg)
- 11:45-12:00 The European Guidelines - Marco del Chiaro (Stockholm)
- 12:00- 12:15 Unsolved problem - Philippe Lévy (Clichy)
- 12:15-12:30 Panel of Discussion - Moderators: Massimo Falconi (Milan) – Carlos Ocampo (Buenos Aires): Carlos Fernandez del Castillo, Markus Buchler, Marco del Chiaro, Philippe Lévy/ Mariano Volpaccio, Augusto Villaverde, MariaTeresa Dávila.

12:30 – 14:00 Break and Poster sessions
12:30 – 14:00 IAP Council Meeting

**Auditorium Juan Pablo II**

**14:00-14:30 Keynote conference** Presenter – Jeremy Wilson (Sydney)

Minoti Apte (Sydney) “Pancreatic Stellate Cells - What's New?”

14:30 –16:00 **Pancreatic Beta cell and Diabetes**

CHAIRS: Nora Slobodianik (Buenos Aires) - Marisa Canicoba (Buenos Aires)
14:30-14:50 Bases fisiopatológicas del tratamiento de la diabetes tipo 2. Juan Jose Gagliardino (La Plata)

14:50-15:10 Epigenetic-mediated reprogramming to pancreatic lineage cells- Federico Pereyra Bonnet (Buenos Aires).

15:10–15:30 Inflammation and beta cell failure in Type 2 diabetes. Gustavo Frechtel (Buenos Aires)

15:30-16:00 Short talks

**Classroom 204**

14:30-: 16:00 **Pancreatic Cancer I**

Chairs: Gonzalo Recondo (Buenos Aires) - Marcela Carballido (Buenos Aires)

- 14:30-14:45 Following the Smoke Trail to the Fire: Harbingers of Pancreatic Cancer - Suresh Chari (Rochester).
- 14:50-15:05 Role of EUS in screening for pancreatic cancer in high risk individuals. Manoop S. Bhutani (Houston)
- 15:30 – 15:50 Surgery for pancreatic cancer after chemotherapy - Claudio Bassi (Verona)

15:50-16:05 Break

16:05-16:35 **Keynote conference** Presenter – Suresh Chari (Rochester)

Raghu Kalluri (Houston) "Exploiting the Biology of Exosomes for the Treatment of Pancreatic Cancer"

16:35 – 18:30 **Pancreatic Cancer Session II**

CHAIRS: Maximillian Reichert (Munich) – Raul Urrutia (Rochester)
- 16:35–16:55 Global Standard for the Treatment of Pancreatic Cancer. Kyoichi Takaori (Kyoto)
- 16:55-17:15 Unhelpful immune cells in pancreatic cancer initiation and development. Florencia McAllister (Houston)
- 17:15-17:35 TBD. Steve Leach (New York)
- 17:35-17:55 CCK-receptor blockade and immunotherapy improves survival of pancreatic cancer. Jill Smith (Washington, DC)
- 17:55-18:15 Clinical, genomic, and biological observations call for a new model of pancreas cancer progression. Francisco real (Barcelona)
- 18:15-18:30 Diabetes Mellitus and pancreatic cancer, a significant association? Mario Pelaez (Mexico DF)

**Classroom 204**

- 16:35 –18:30 Workshop on Nutrition in Pancreas Diseases
  
  CHAIRS: Laura Matarese (Greenville) – Gustavo Frechtel (Buenos Aires)
  
  - 16:55-17:15 Perioperative Nutrition & Pancreatic Cancer. Antonio Carlos Campos (Curitiba)
  - 17:15-17:35 Nutrition in Chronic Pancreatitis. Marisa Canicoba (Buenos Aires)
  - 17:35- 18:15 Case Based Panel Discussion – Moderators: Laura Matarese - Gustavo Frechtel. Panelists: Nora Slobodianik, Gertrudis Baptista, Antonio Carlos Campos, Marisa Canicoba, TBD

**Auditorium Juan Pablo II**

18:30-19:00 Palade Prize Lecture TBD

**19:30 Gala Dinner**

- Lifetime Achievement Awards
- IAP Travel Awards (Young Researchers)
Preliminary Program – Pancreas 2017

September, Saturday 30

8:00 -13:30 Registration/Secretary

8:00 – 9:00 Poster Sessions

Auditorium Juan Pablo II
9:00 – 10:45 Symposium on Neuroendocrine Pancreatic Tumors
CHAIRS: TBD - Juan O’ Connor (Buenos Aires)
◦ 9:00 – 9:20 Approach and medical management of Pancreatic Neuroendocrine Tumors. Delle Fave Gianfranco (Roma)
◦ 9:40- 9:50 Role of Nuclear Imaging in Pancreatic Neuroendocrine Tumors TBD
◦ 9:50- 10:10 Role of EUS in pancreatic neuroendocrine tumors. Manoop S. Bhutani (Houston)

Closing Keynote Conference
◦ 10:30-10:45: Symposium Discussion

Classroom 204

◦ 9:00 – 10:30 Pancreatic Disease in Children
CHAIRS: David Whitcomb (Pittsburgh) –Maria del Carmen Toca (Buenos Aires)
◦ 9:00-9:20 Molecular Treatment to target specific Cystic Fibrosis mutations Omar Pivetta (Pilar)
◦ 9:20-9:40 Hereditary pancreatitis: Natural History and Cancer Risk - Philippe Lévy (Clichy)
9:40-10:00 Total Pancreatectomy & Islet Autotransplantation in Children: Why, When and How? Jaimie Nathan (Cincinnati)

10:00-10:20 Pediatric Chronic Pancreatitis Updates in the 21st Century. Maisam Abu-El-Haija (Cincinnati)

10:20-10:30 Discussion

10:45-11:00 Break

**Auditorium Juan Pablo II**

11:00 –11:30 “Alejandro Oria” State of the Art Lecture. Presenter, Eduardo de Santibañez Markus Büchler (Heidelberg) “Surgery of advanced pancreatic cancer”

11:30-13:30 Translational Pancreatolesy

CHAIRS: Francisco Real (Barcelona)- Alejandro Ropolo (Buenos Aires)

- 11:30-11:50 Restoration of energy level in acute pancreatitis: from bench to the bedside – Peter Hegyi (Pécs)
- 11:50-12:10 Modulation of Heat Shock Response to Develop Novel Therapies for Pancreatic Diseases - Ashok Saluja (Minneapolis)
- 12:10-12:30 TBD Juan Iovanna (Marseille)
- 12:30-12:50 Microbiota & Pancreatic Cancer -Laura Matarese (Greenville)
- 12:50-13:10 Development of small molecule therapeutics, Metavert for the treatment and prevention of pancreatic cancer - Stephen Pandol (Los Angeles)
- 13:10-13:30 TBD Gonzalo Recondo, MD (Buenos Aires)

**Closing Keynote Conference**

**13:50- 14:10 Closing Ceremony (IAP and LAPSG executives)**

**14:10 – 15:30 Wines & Cheeses**
